

Your financial to-do list

Five quick tasks to help your future self

1

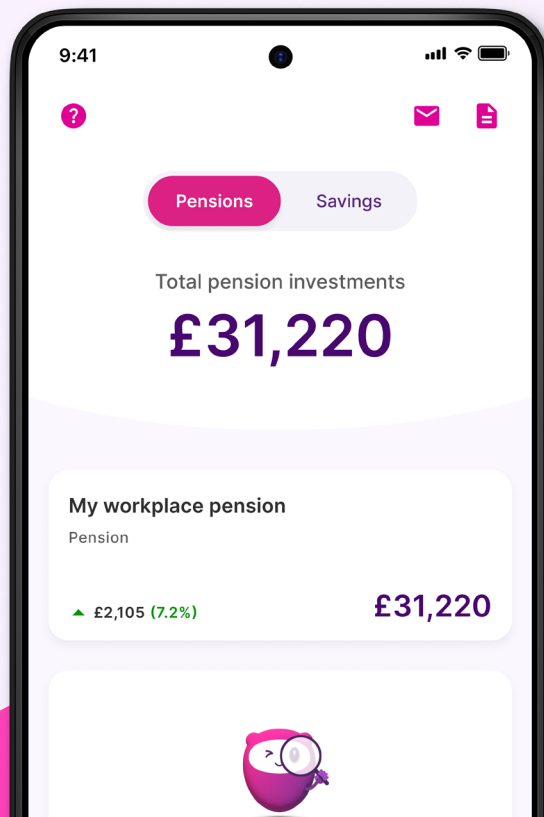

Download the Cushon app

Paper documents? You must be joking! Ditch the clutter and bring your savings online.

Scan the QR or search your app store for 'Cushon'.

To log in, find your PIN in your welcome pack or call us to reset it.

2

Combine your pension pots

Transfer any old pensions to keep them all in one place. We can track down your old pensions for you, using just your work history.

3

Check your contribution level

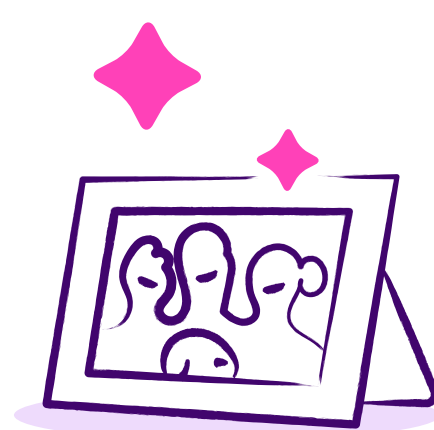

Take a moment to check your current contribution level and consider whether you could afford to save a little more each payday. Even a small increase now can make a big difference over time, helping to boost your future financial security.

4

Add your beneficiaries

Choose who would inherit your pension savings if the worst were to happen. Adding your beneficiaries in the Cushon app is quick and easy.

5

Set your target age

Set your target retirement age in the app to see a projection of your future savings. It's a simple way to check if you're on track for your goals.

Looking to do more?

Open the 'Know-how' area in the app to discover bite-sized articles and courses that can help you build your knowledge and make more confident financial decisions.

The value of investments can go down as well as up which means you may get back less than you put in. We do not provide financial advice.
